

BVM LINK EXTENDERS

The BVM Link Extenders connect to standard links, eliminating the need to remove the standard links to install extra long links, decreasing downtime and part count. They are rated to 350 tons and have a length of 72", 96", 120", or 144". The links are forged in the USA from high quality alloy steel. All links are certified, 1.5x load tested, and magnetic particle inspected.

PART NO.	LENGTH	WT. PER SET (LBS)
27572-LE	72	762
27596-LE	96	893
275120-LE	120	1024
275144-LE	144	1155
