

# BVM ELEVATOR LINKS

BVM's Elevator and Work Over Links are forged from a single piece of high-grade alloy steel. BVM Links are designed to improve handling and balancing of the elevator and are supplied in a matched set. All links are certified, magnetic particle inspected, and 1.5X load tested. 1000 ton & special lengths are also available. Big Eye part numbers have "-BE" at the end.

| PART NO.  | LENGTH | RATING (TONS) | WEIGHT PER SET |
|-----------|--------|---------------|----------------|
| 17536     | 36"    | 150           | 215            |
